Educational material for  
health care providers

## Gallium (<sup>68</sup>Ga) gozetotide image interpretation training

Educational materials are additional risk-minimization measures aimed to maximize the risk-benefit balance.

Misinterpretation of PET images may lead to patient misdiagnosis. In cases of false-positive image interpretation, the patients may be exposed to treatment(s), the side effects of which may be clinically impactful. In cases of false-negative image interpretation, the patient may be denied potentially relevant treatment(s) while still expected to receive standard of care.

This image interpretation training for gallium (<sup>68</sup>Ga) gozetotide images is provided to you as a resource to help familiarize you with techniques for the safe and effective usage of LOCAMETZ<sup>®</sup>, after labeling with gallium-68.

The educational material for LOCAMETZ contains the following key elements:

- Introduction to gallium (<sup>68</sup>Ga) gozetotide
- Biochemical basics
- Patient administration and scanning protocol
- Image reading and interpretation guidelines
- PSMA PET in the context of other imaging modalities and histopathology
- Interpretation of gallium (<sup>68</sup>Ga) gozetotide PET scans in different use scenarios and comprehensive case study reviews
- Self-assessment test

To retrieve the educational material visit: **PHARMACA FENNICA** [www.pharmacafennica.fi](http://www.pharmacafennica.fi)

It is also possible to acquire the material by sending email to [info@samnordic.fi](mailto:info@samnordic.fi)

Responsibility for the accurate and timely acquisition and interpretation of images using gallium (<sup>68</sup>Ga) gozetotide PET/CT scanning rests with the nuclear medicine physician or radiologist (board-certified medical practitioners) qualified to interpret PET scans. The image interpretation training is not intended to substitute for the independent medical judgement of the physician(s) responsible for the individual patient's management, nor is it a guarantee of any specific clinical results.
